Successful Selling On EBay

Author <http://www.internetincomestreams.net>

Would you like to join the Successful Sellers on EBay, who are making \$2,500 per week?

Well I can give you an insider's edge, as I have been selling on EBay for over 3 years with a feedback of over 4,500.

I can tell you the most profitable and easiest products to sell on EBay, how to deliver them without touching them!

I have sold everything from lingerie to electronic consumables, the best source of cheap goods to sell on EBay can be found by checking here for [cheap stock](#)

First Things, First.

The first thing you have to do is open an eBay account, click <http://www.ebay.com> if you haven't got one, then buy 25 1 cent eBooks, then you can open an EBay store, this will have you trading within 24 hours.

Open a Paypal account, click <https://www.paypal.com> to open an account, if you haven't got one already. So to buyer's confidence when buying, this is proven to increase sales.

Now, the most profitable product to sell on EBay will give you a profit margin of 2,000% and can be delivered in seconds.....interested?

After selling tangible goods, the hassle of products getting lost in the mail, buyers claiming they haven't received them when they have, the hassle of taking them to the mail office...selling information products is easier and more profitable and I have been selling them for the past 12 months, I wish I had found them earlier...

EBay Store.

Once you open your EBay store, you have to give it a “business feel”, then what you need to do, is purchase a set of eBooks, that come with sales pages, this way you can use them as your auction page’s.

List the eBooks as your inventory, enter a quantity of 1000 then send a couple of them to online auctions for 1c, 99c and \$1.50, use them as loss leaders, this way you can build a list of buyers quickly.

When you have a list of buyers, you can then set an account up with an auto responder company such as www.1shoppingcart.com, they do everything including Managing Affiliates, subscribers, shoppingcart and pop up software to collect more subscribers!

List them in the categories such as:

- Home Business
- Everything Else

These produce categories are the best to give maximum results. I have listed on 3, 5, 7 and 10 days, but none pull more orders than the other, I have found that launching a 1 day sale for a limited number of sales, does work well!

<http://www.internetincomestreams.net/>

In the listings, you have the ability to list them as digital downloads, so that when you are paid via Paypal, Ebay directs the buyer to your download link.

The link is to the location of the download link on your website, if you don't have a website you can set Microsoft Outlook Express up to send the download in an email to the buyers, when Paypal sends an Instant Payment Notification.

Automated Ebay can be downloaded free by clicking [HERE](#)

Dealing with troublesome buyers.

The best way to deal with buyers who have a genuine problem with the product, needs a refund and you should even receive positive feedback.

The problem is harder when the buyer is just after a refund because they are "trying their luck", unfortunately, due to EBay's success these problem buyers are increasing, and my attitude is to be fair but firm.

<http://www.internetincomestreams.net/>

For instance, I was selling 1 eBook and a buyer purchased it for \$4, then immediately emailed me demanding a refund, because he had purchased the same eBook from “someone else”. My response was to point out that he never asked the title of the eBook, if he had I would have been honest and told him, so no refund.

Paypal Loopholes, people try for an unfair refund!

In my experience there are 2 types of buyer, the honest one who represents approx 95% and the dis-honest one 5%, unfortunately it's the 5% that cause you the most problems.

“Not as Described”, this is used when someone is trying for an unjust refund; however Paypal's buyer/seller protection does not cover intangible goods.

<http://www.internetincomestreams.net/>

“Unauthorised use of Paypal account”, now this is a good one as I have had 1 buyer try this, but they had already tried to get a refund using not as described, not very intelligent.....so Paypal sided with me the Seller.

The last one is a classic, “unauthorised use of credit card”, I have had people try for not as described then disputed the transaction on their credit card, so the credit card company contacts Paypal and tells them they will not pay, in this case you will probably loose, this buyer is a seasoned product thief!

I know its frustrating, but its the minority that spoil it for the majority every time.

Resources.

There are many topics to cover in EBay, but I find an excellence source of innovative ideas on auction secrets can be found [HERE](#)

<http://www.internetincomestreams.net/>

There are many ways to make a living off EBay; some people even make it for misspelt words and even referring people to buy off EBay!

Some people make a living by providing a service using Ebay...if you look on Craigslist under “wanted”, there are many items such as cars, houses, etc, what some of these people do is simple – they sign up with Commission Junction who are an Ebay partner for Affiliates, they then get a PID code unique to each Affiliate (this is how you get paid).

Using Ebays sellers tools – they create a link that can be emailed – the Affiliates then look for people who have placed wanted ads on Craigslist then email them with the link to the relevant section, for example 1997 Chevolet for \$3,000 when the person who placed the wanted ad clicks on the link the Affiliate will be credited with commission for 30 days - when they buy, if they open an account and buy the Affiliate earns everytime they list and buy...its a win win situation.

More information on this topic can be seen at [HERE](#)

I prefer the selling of information products, especially when you switch your computer on in a morning and you have taken \$500 overnight and you have nothing to ship.

SO WHAT INFO PRODUCTS SHOULD I SELL ON EBAY?

This is a guide on what info products sell best on eBay.

On each day from April 18th to the 23rd April 2007 I have recorded the last 250 info products that have sold costing between \$5 and \$200.

This report shows my findings and recommendations. You will find out where the money is in selling info products. I will also be revealing how many times that some of the most popular keywords are used.

And some other “hot” words that people use in their titles. At the end of the report, there is a list of all the titles and prices of ebooks that I have used for this research.

Here are the results of my findings on a day by day basis:

Conclusions from findings

As you can tell by - far the most popular ebook topics are wholesale lists, police auctions and make money/Internet Marketing. eBay is one of the only places where you have easy access to the money making market and can have a decent chance at selling Internet marketing ebooks successfully.

To increase your chances you need be unique and create your own ebook. This can still be hard work and take a bit of trial and error. But there is certainly no harm in trying, some good copy and you could have it made.

But wholesale lists and police auction lists – they are a different breed of fish. These can be very easy to compile.

Alright you may need to buy an additional source but you can rewrite the findings (names, addresses, what they sell, website etc) in a slightly different way i.e. make it unique and avoid copyright infringements by putting in a different order or a table.

If you choose to sell police auction details you only need one list (unlike wholesale list but you can get all these lists from one place – more in a bit) and can change the title accordingly – let me demonstrate:

<http://www.internetincomestreams.net/>

All these titles:

PLASMA TV s 95% OFF RRP! POLICE AUCTION EBOOK+BONUS
PSP CONSOLE-UP TO 95% OFF RRP POLICE AUCTION EBOOK
Rolex Watches At 95% Off RRP Police Auction Ebook, SALE
SAVE 95% IN CAR GPS SAT NAV AT POLICE AUCTIONS ebook

XBOX 360 CONSOLE - 95% OFF POLICE AUCTION EBOOK!

can have the same description: (see following page). And the return on this investment as I will show you can be phenomenal.

This is an example description from fletcher9890 – please do not copy (use it as a template but you must rewrite in your own words), I am using it for demonstrative purposes only and to show you that only one description is needed per a number of titles. Its both simple and effective:

Lots of these police auctions are for UK only but I have found a source that is for US as well. See and feel the money!

Now for the potential profits:

The average selling price of a police auction list from the research I have done is \$35.21.

Thats just the average look how much these ones have sold for:

90% OF LAPTOPS-police auctions and wholesale list 99.99
XBOX 360 Games Console 95% off RRP 104.91
SAT NAV - 95 % off RRP @ POLICE AUCTIONS 126.15
HD PLASMA TV UP2 95%OFF RRP POLICE AUCTION EBOOK 126.15
LATEST SNAP ON TOOLS 95% OFF at POLICE @UCTION 191.09

Now all your auctions won't go this amount. But one or two a week – for the odd title change?

Fantastic!

Now for the great US police auction site I have come across – click [HERE](#)

Now for some wholesale list thoughts:

Wholesale lists seem according to my five days research are the best selling type of information product. And one of the most searched for items on eBay. The average selling price of a wholesale list is: \$26.51

One of the best things about both wholesale list and police auction listings is that you don't need a featured listing. Very few if any people selling these items use a featured listing.

Thinking out the box the use of a featured listing could even be a competitive advantage – definitely worth experimenting with.

A couple of great wholesale list resources can be found below:

Go through the listings of completed information product sales that I have compiled, that are on the following pages, put your idea cap on and become a Powerseller in no time at all (well in 3 months).

Examine the selling titles, learn, go on eBay, search the completed listings for ones you are interested in, look at the descriptions, decide what ebook you are going to compile/write and go for it!!

Look out for the gems and the unexpected!!

I hope you have found this report both useful and inspiring.
